STORAGE SOLUTIONS SQUARED

Company Spirit

For more than four decades the name Kappes stands for constant high quality and is inseparable with user-friendly and ergonomic concept-orientated Systems of Ordering and Tool Storage, and Material Storage. The system line has been the leading character of the Company from its beginning on. Developing from a little company it has nowadays a range of products in its system line of more than 3000 different but well-matched articles. The high quality level, excellent logistics, outstanding service and a very short delivery time combined with the guidance the human is always in the center makes customers worldwide trust on us.

Innovation

By using new technologies the range of products is at a steady process of developing and optimizing. Thanks to the modular design the customer can grow and extend its warehouse and construction sites even after years with the same visual and functional products

The Brand Environment

The Brand Environment with its brands ®RasterPlan, RasterMobil®, ErgoPlus®, ErgoBlock®, LogoChart®, ABAX® stands for highest quality, loads and durability.

Distribution and Communication

The Kappes Systeme sets emphasize on a highly skilled and trained team who provides support with dedication and commitment. Full support, team spirit and the 48 hours-delivery service (for almost all products listed in the catalogue) area matter of course.

International

Long-established and open-minded.

The product line of Kappes Systeme GmbH are not just integrated into the German market, the success of its high quality range of products can be found in most of European markets as well as outside Europe.

Production Site

Kappes Systeme GmbH always set focus on the Production Site of Germany. Thes focus will be even more in future. Rational growth and minimizing risks secure not only highly dedicated workers its employment, it also guarantees related-to-praxis solutions operational application and Order Systems.

Pages marked with the pictograms contain products with the RasterPlan square hole System, the louvred stamping or a combination of both.

Tool Board

Louvred Board

Combination

Order is a profession, which is laid in our cradle. We tidy up, store and sort - we set up order - with all possibilities and matters.

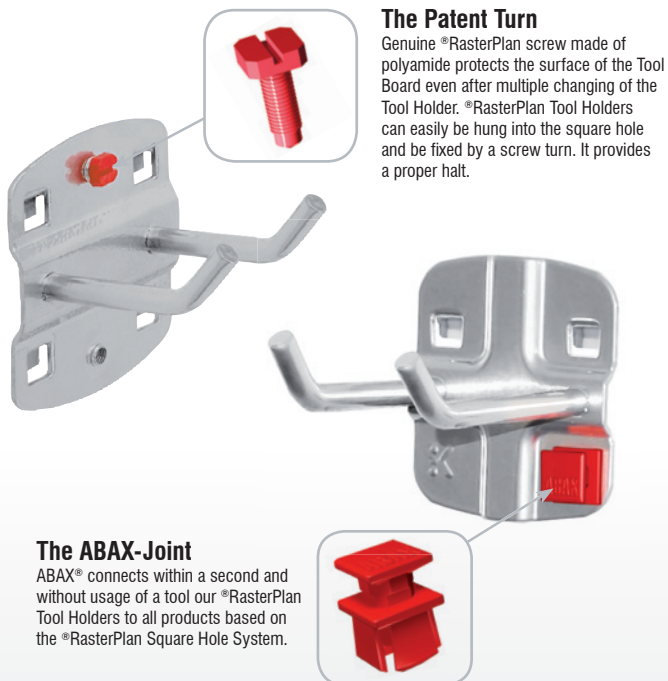

Order generates space, brings an overview and saves time.

This knowledge has become a profession, and now we invent and improve these professional storage systems for industrial purposes over the last four decades.

Off the Tool Boards for organizing tools, through the plastic bin to store materials and small parts, up to our high quality cabinet systems for the safe storage of heavier machine parts.

Everything has its place and is designed for immediate usage.

Order can be set up

One of our principle of success is our high quality standard claim towards ourselves combined with the love on the detail. Due to continuous innovations and sustainable investments in the production site of Germany, all our products provide quality, variability and functionality.

It is not the size of a company which provides the quality statement furthermore it is the quality which makes the size. Continuous quality controls are an important part of our companies philosophy. Chosen products also wear the seal "GS-Zeichen" for proven Quality.

Quality in Detail

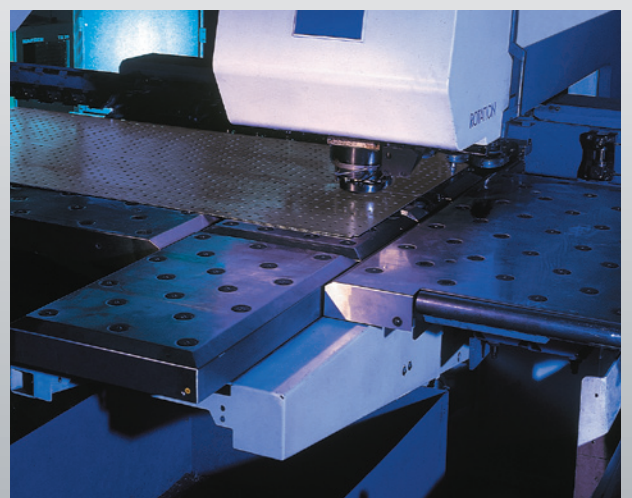

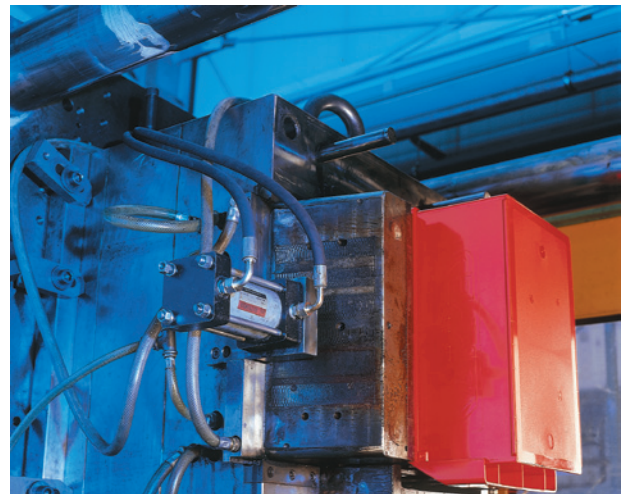

Our Product Lines

...help people to organize. Organize themselves and at the end make the working processes in daily usage more simple and efficient. To almost all internal organization problem we want to provide you a solution. This is our Claim.

Our Company

...Is big enough to guarantee quick delivery times by a steady high quality standard, and on the other hand small enough to be flexible and trying to succeed even in individual desires and demands of our customers and business partners. We are successful together because the demands of the people inspire us for new inventions.

In the center is the human

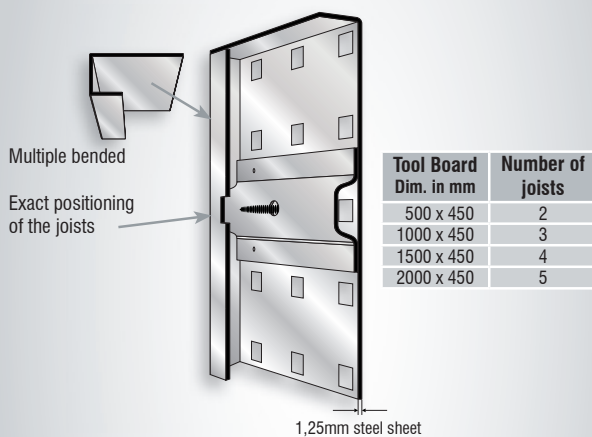

The Systematic way to set up order by using RasterPlan Tool Boards. Universal usage by high flexibility - Off the single Tool Board at the wall, by the application as dividing units through the use at trolleys and standing units or even in Tool Cabinets and Pull-Out Cabinets.

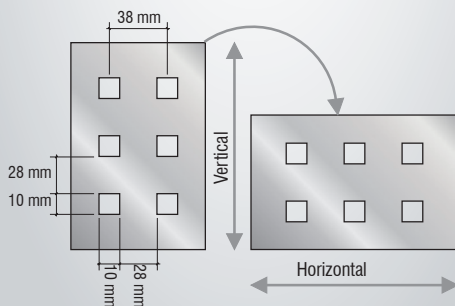

Details

- Easy neatly arranged tool storage
- Quick access
- Systematic order by color
- Impact and scratch resistant plastic coating
- Special constructed Joist
- Sheet steel board 1,25 mm thick
- Covered holes for wall mounting
- 14 brilliant ordinal colors
- 4 sizes - 8 flexible application possibilities
- Compatible with RasterPlan Louved Boards

Construction of the backside

®RasterPlan Tool Boards are stiffened by special designed joists, both sides welded on for highest load.

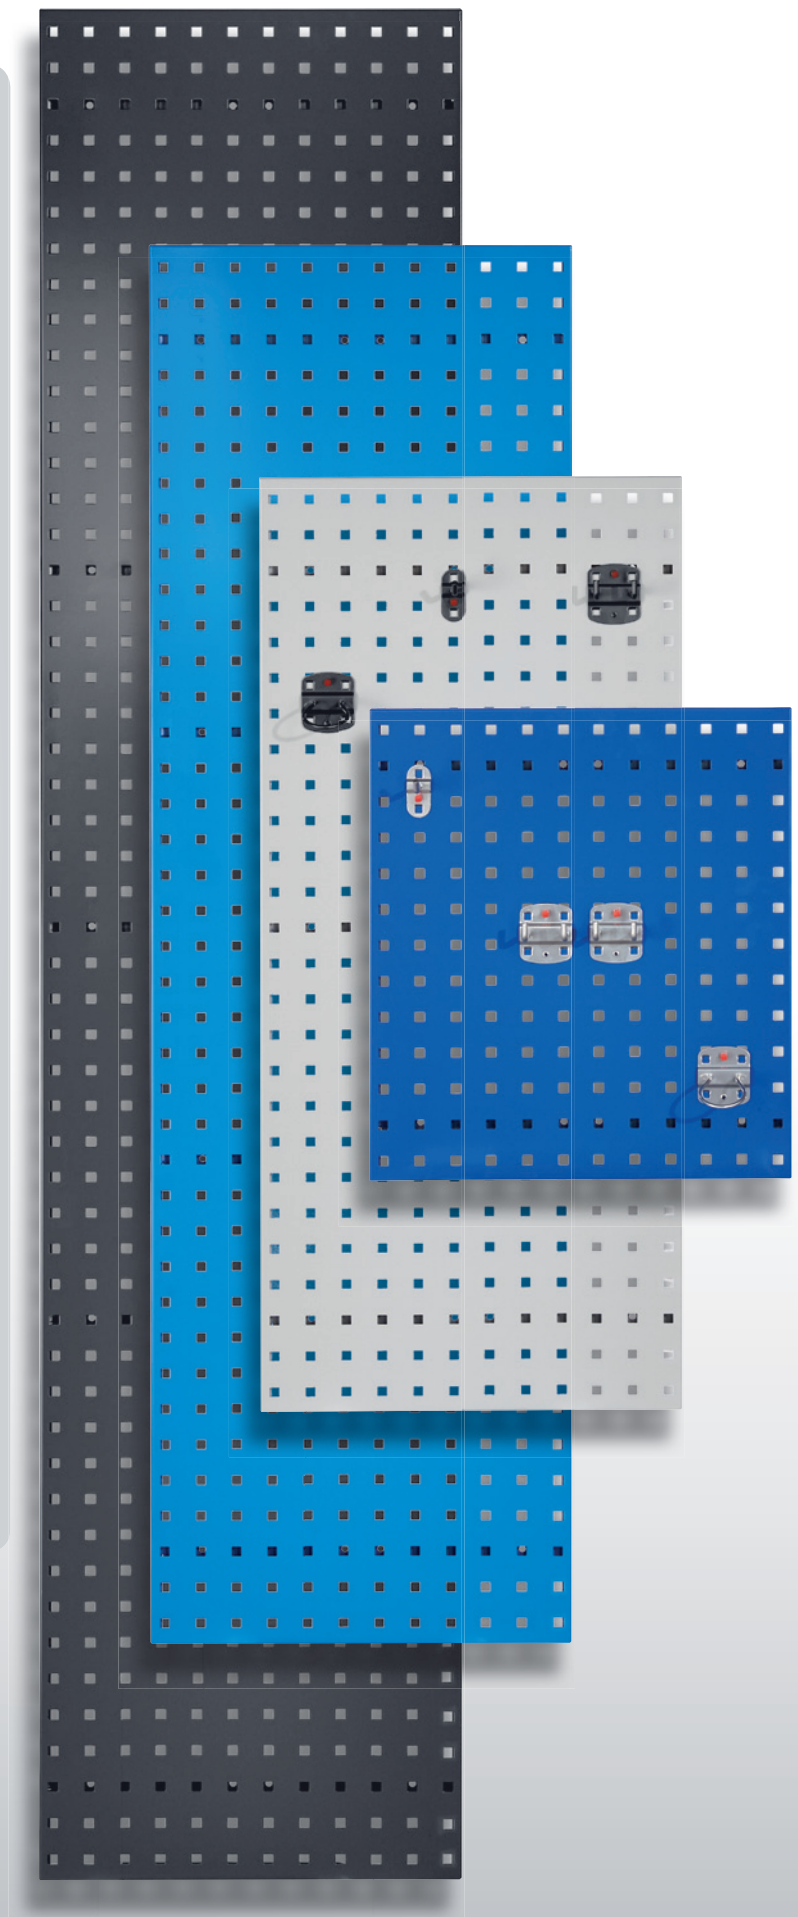

Flexibility

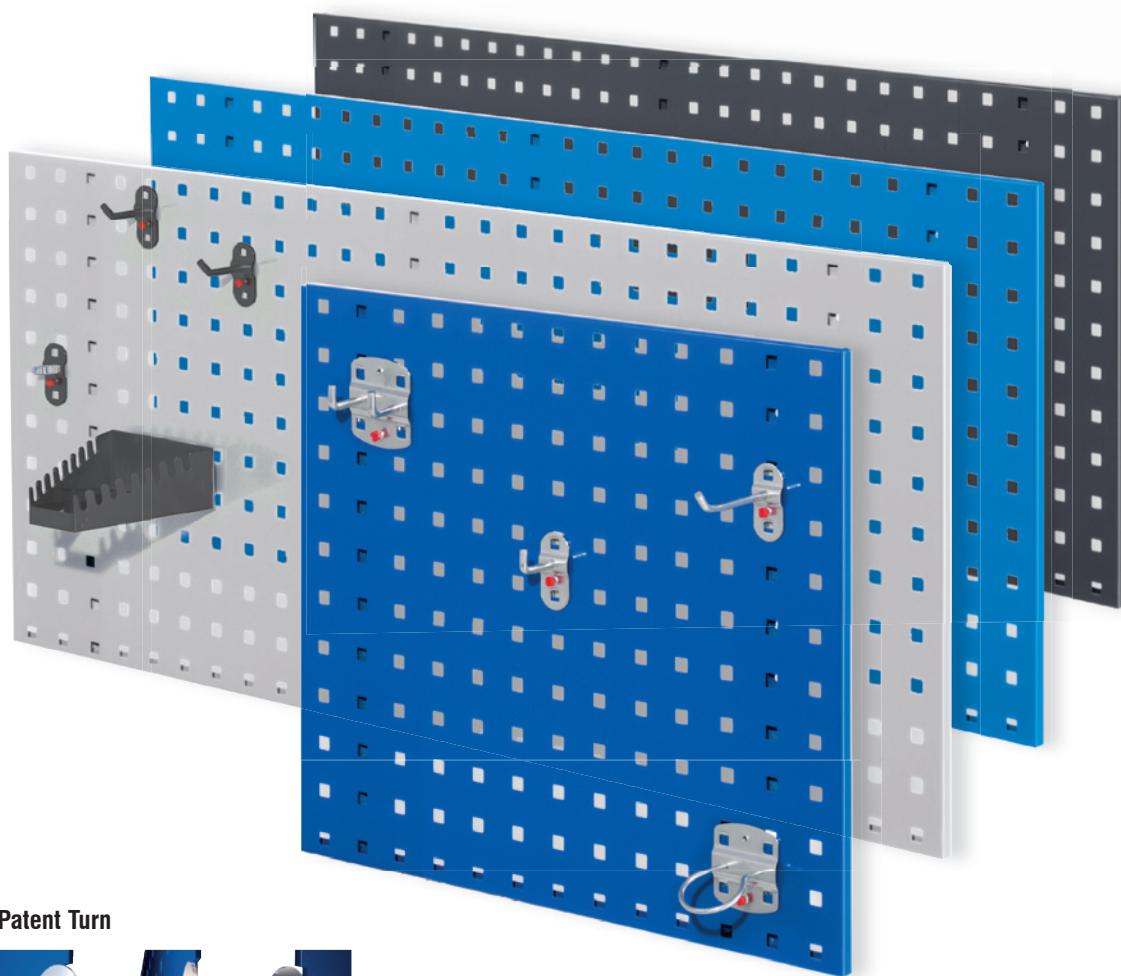

Genuine ®RasterPlan Tool Boards can be used vertical and horizontal.

Workbench Brackets

for 1 board	4470.00.0401
for 2 boards above	4470.00.0501
(are required in pairs)	

The Patent Turn

®RasterPlan Tool Holders can easily be hung into the square holes and be fixed by a simple turn of the screw. This provides a safe compound.

The new product in the RasterPlan collection represents an ideal solution for handling tasks in warehouses, offices, reception areas, conference and social facilities, archives and many other areas.

Discover for yourself the new versatility of the LogoChart® lends to your workplace. The whiteboard with washable field offers an ideal surface on which to create quick diagrams, notes and other visual aids. Frequently used tools and other work needs can be housed using the Tool Holders of the tool board.

Whatever you want to organise, our comprehensive range of RasterPlan accessories offer multiple solutions.

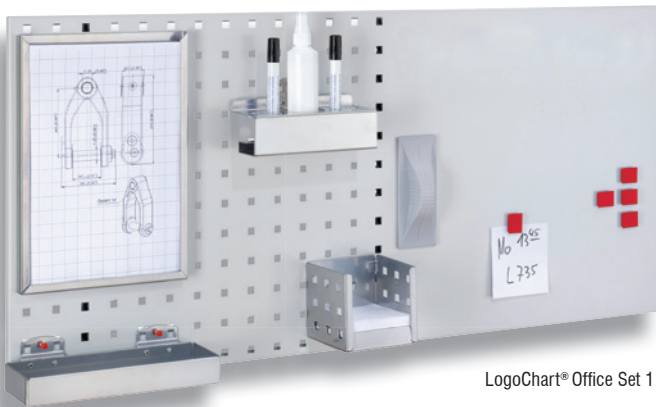

The LogoChart® enhances the functional RasterPlan Tool Board range as planning aid for warehouses and offices.

Details

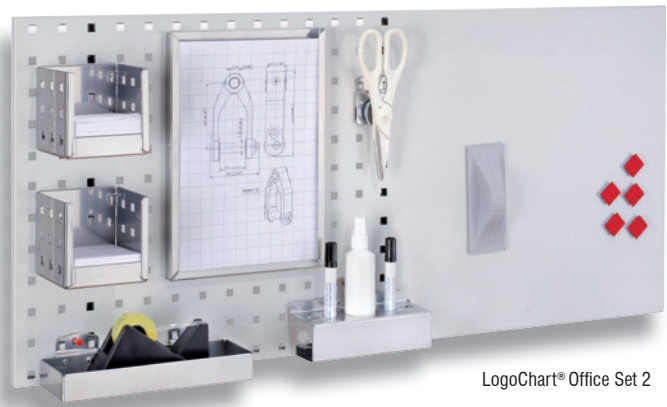

- Multi-functional and flexible in planning
- Impact and scratch resistant plastic coating in light grey
- Can be used both vertically and horizontally
- 1000 x 450 mm, light grey (RAL 7035)
- Accessories optionally aluminium or anthracite
- Writing surface can be wiped clean with no traces (Please only use non-permanent markers)
- Magnetic
- Additional Tool Holders available in aluminium color and anthracite

ABAX®

ABAX® connects within a second and without usage of a tool our ®RasterPlan Tool Holders to all products based on the ®RasterPlan System square holes.

®RasterPlan Tool Holders with the ABAX®-Joint are an innovative and fully compatible extension of the well-known ®RasterPlan Tool Holder System.

ABAX® connects within a second and without usage of a tool our ®RasterPlan Tool Holders to all products based on the ®RasterPlan System square holes. The locking is given after hooking in and fixing the ABAX®-Clutch by pressing the locking pin.

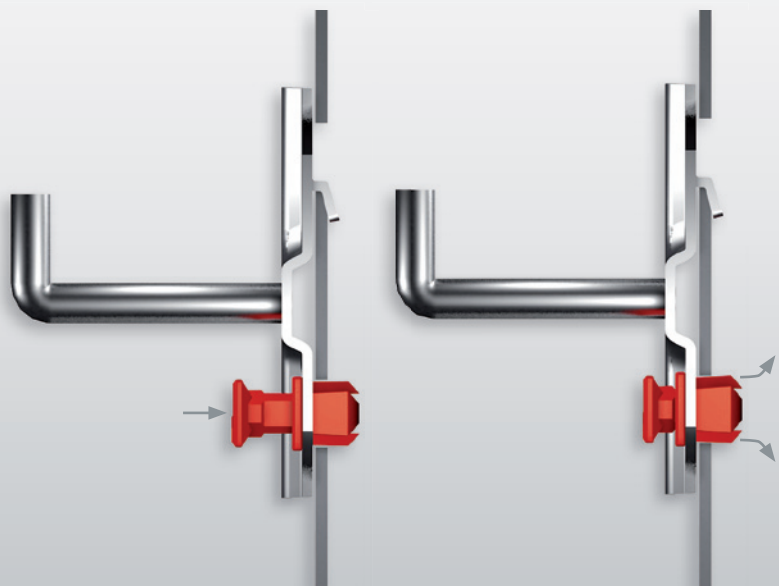

By easy pulling - without the usage of a tool - of the locking pin, the ABAX®-Joint will be loosened and can be used again ABAX® provides a quick and flexible positioning of the ®RasterPlan Tool Holder.

®RasterPlan and ABAX® - a Strong Joint!

Details

- Tool-free assembly
- Quick and safe handling
- Highest grade of flexibility, because of tool free removal
- "GS-Zeichen" certified Tool Holder system

Tool storage

Cabinet systems

Storage of small parts

Ergonomics

The systematic way to obtain organization with genuine ®RasterPlan Louvred Boards. A basic element of the ®RasterPlan System. Universal Holder, Plastic Bins, Shelves and many more Tool Holders can be easily hooked into the stamping. ®RasterPlan Louvred Boards are universal combinable and applicable at walls on the backside of work benches, at dividing walls, trolleys and as well in cabinets.

Details

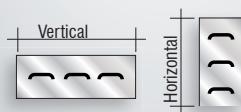

- Easy neatly arranged tool storage
- Quick access
- Systematic order by color
- Impact and scratch resistant plastic coating
- Special constructed joist
- Sheet steel board 1,25mm thick
- Covered holes for wall mounting
- 14 brilliant ordinal colors
- 8 sizes - 8 flexible application possibilities
- Compatible with RasterPlan Louvred Boards
- Fitting RasterPlan Plastic Bins size 5-8

Louvred Board Dim. in mm	Number of joists
500	2
1000	3
1500	4
2000	5

Construction of the Backside

®RasterPlan Louvred Boards are stiffened by special designed joists, both sides welded on for highest load.

Vertical and horizontal shape

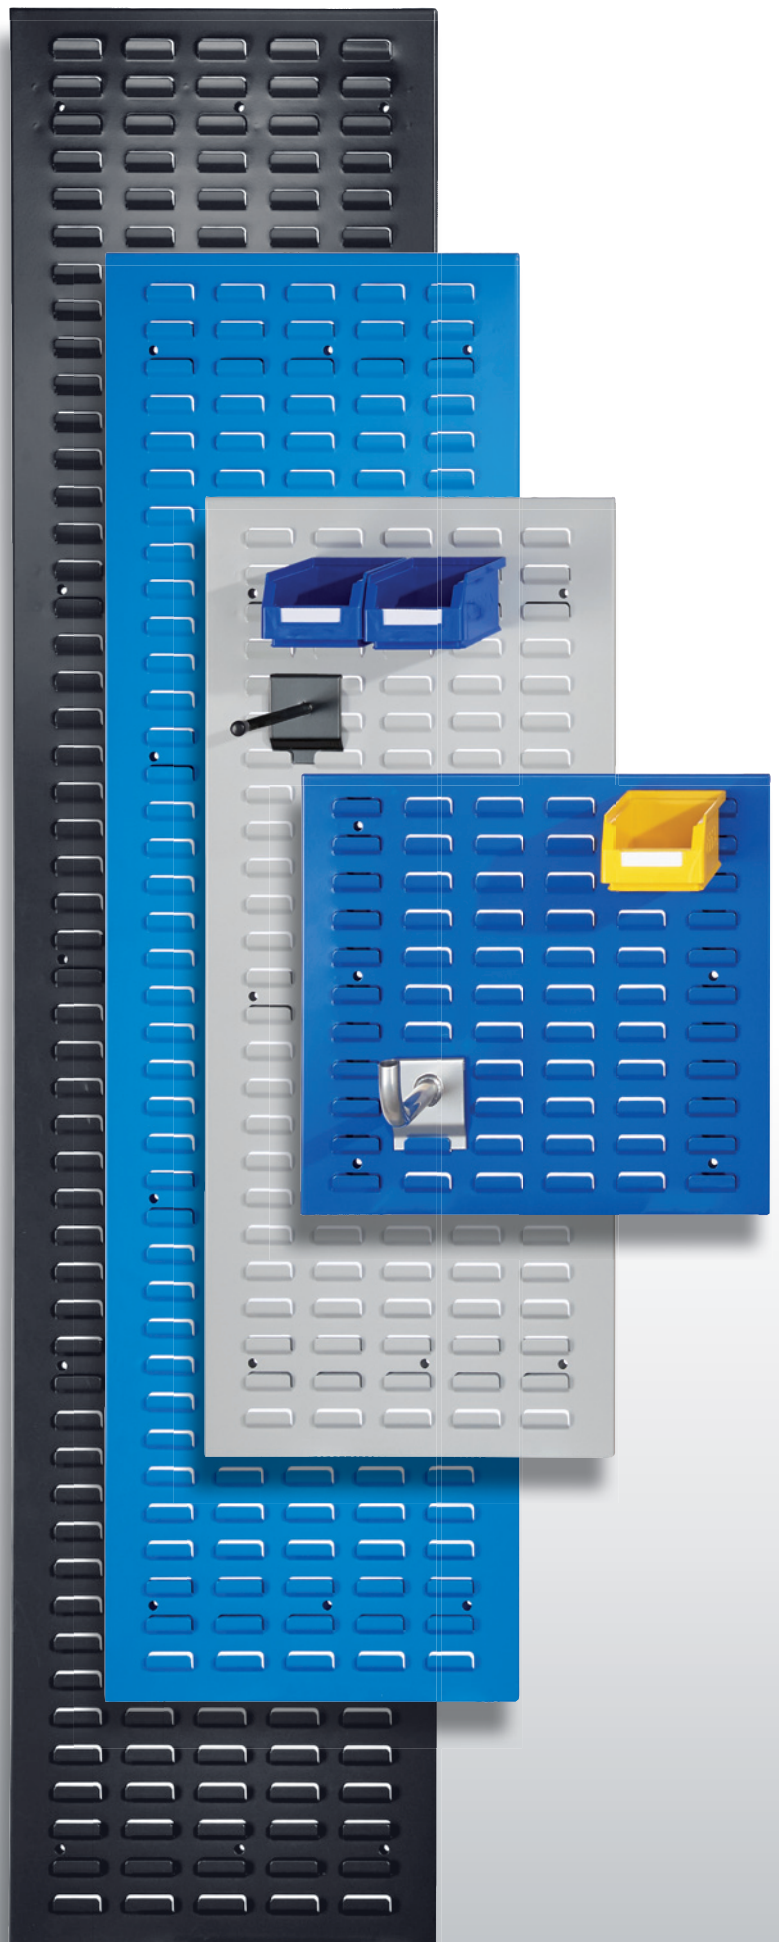

Genuine ®RasterPlan Louvred Boards are availabl in vertical and horizontal shape.

Workbench Brackets for ®RasterPlan Louvred Boards

for 1 Board	4470.00.0401
for 2 Boards above each other	4470.00.0501

Secure Fitting

The special forming of the rear hanging bar allows the plastic bin even in loaded condition to be hang to and removal horizontal. No spilling of the content.

Full Load! No Spills

6 Attitudes that convince:

1 Material

Made of impact and shatter-resistant Polyethylene
Temperature-resistant between -40°C up to +80° C
Proof against acids, oils and solutions

2 Rear hanging bar

Specially formed rear hanging bar which enables absolutely horizontal hanging and removal of the bins to and from the RasterPlan Louvred Boards (sizes 5-8) even when fully loaded. Thus no spilling of content.

3 Label Holder

Stable Label Holder with clamp effect

4 Inner Side

Easy cleaning due to smooth internal walls. Optimal filler loading of the bin

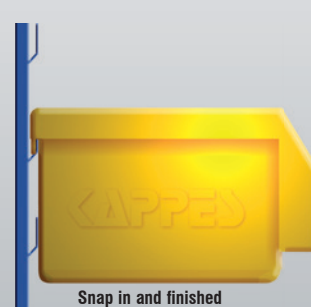

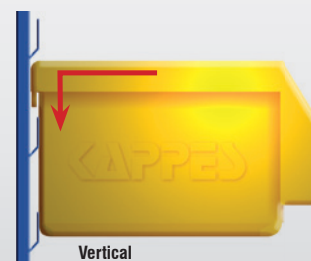

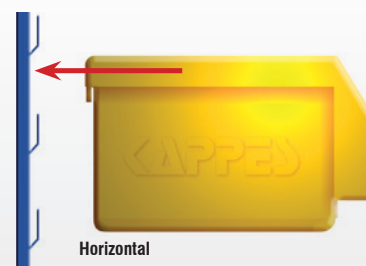

5 Ergonomic Handling

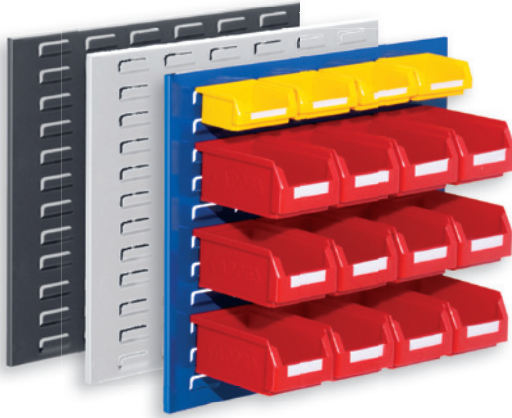

Multiple reinforced recessed grip on the front.

6 Transparent Lid

Made of Polystyrene transparent. Clear view on the content

These ®RasterPlan Movable Walls can be equipped with ®RasterPlan Tool / Louvred Boards or a combination of the two and are designed for workplaces in which tools and small parts, such as screws etc., must be kept at hand.

Details

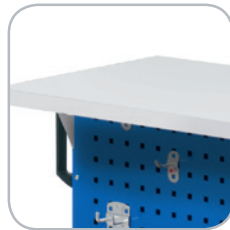

- Modular structure, in four heights
- Subsequent modification or exchange of tool and Louvred Boards possible
- Impact and scratch resistant plastic coating
- Standing frame light grey
- Single and/or double-sided use possible

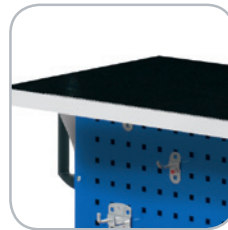

®RasterPlan

Steel Top Shelf

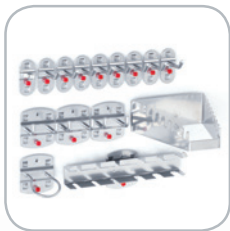

Steel Tray Shelf

Steel Top Shelf with Corrugated Rubber Insert

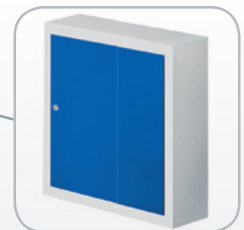

Steel Top Shelf with a 30mm Beech Plywood workbench top

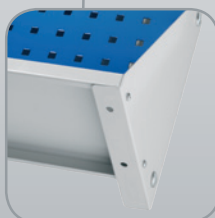

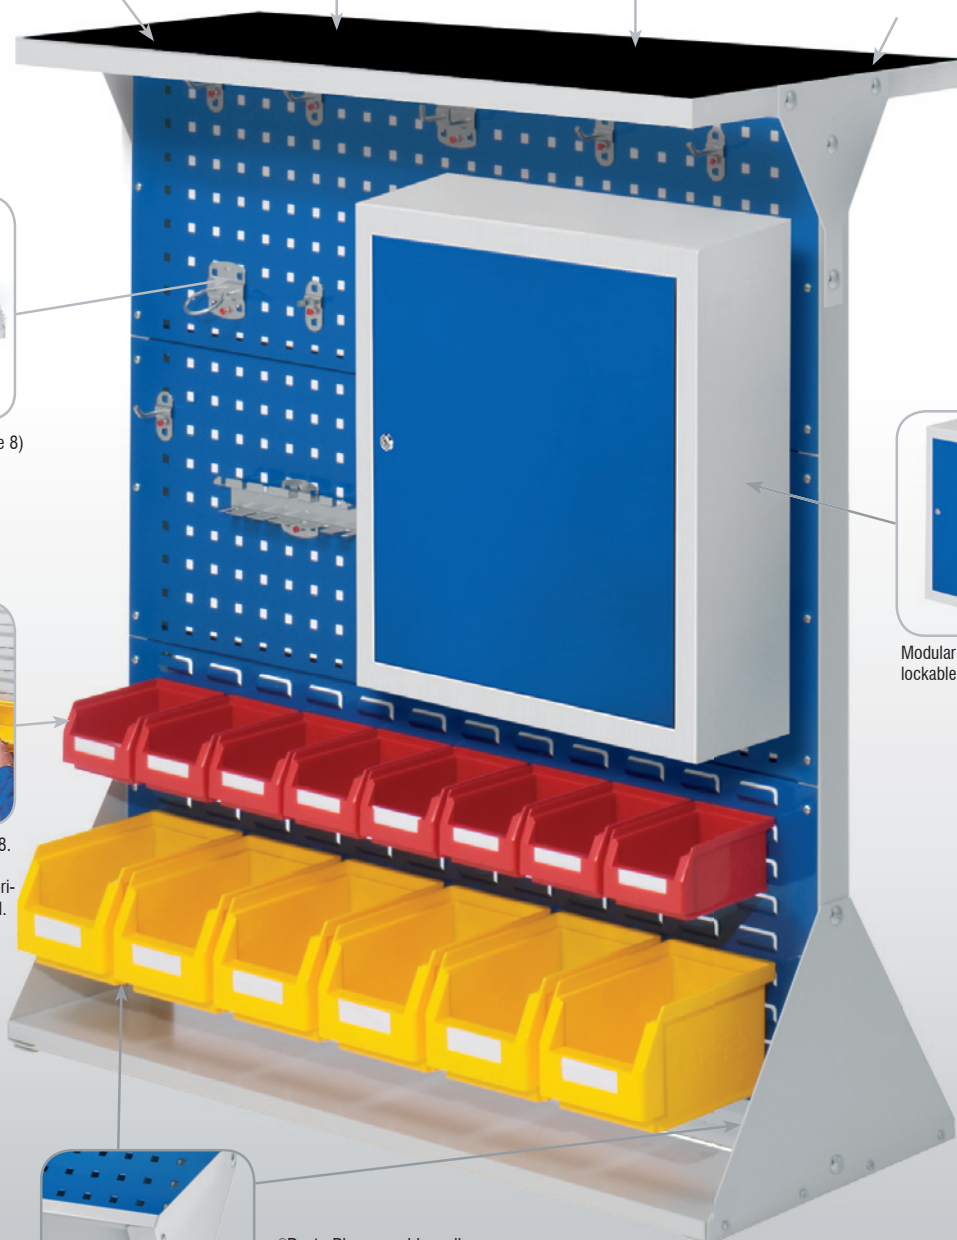

*RasterPlan Tool Holders (page 8)

RasterPlan plastic bins Size 5-8. Plastic Bins can be hung and removed at Louvred Boards horizontally even when fully loaded.

Modular Mounting Cabinet - lockable

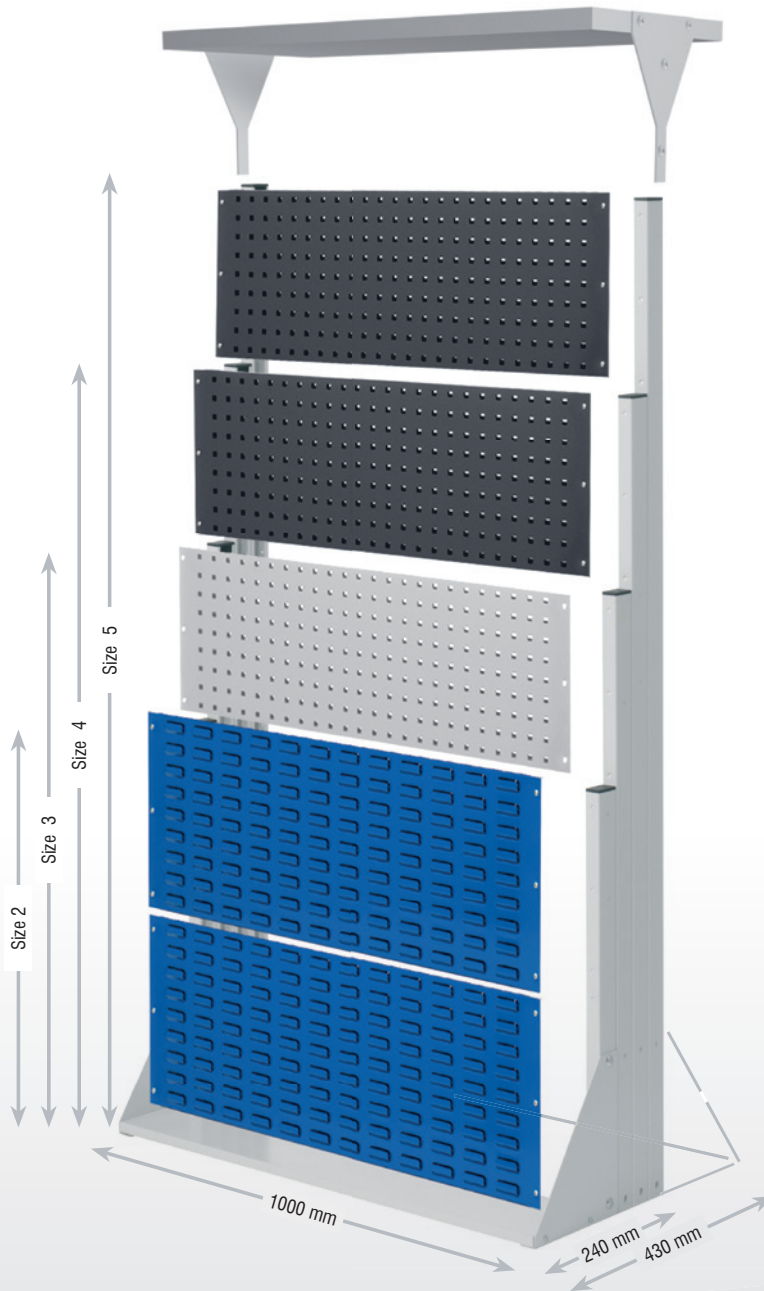

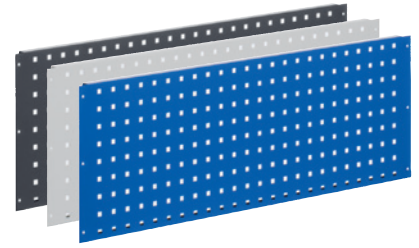

*RasterPlan movable walls are equipped with hidden fixing holes for floor anchoring.

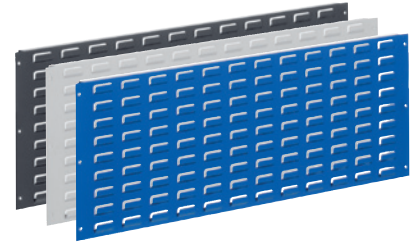

The assembly of the ®RasterPlan Movable Wall is quick and easy through its intelligent modular design. The Movable Wall consists of the Standing frame completed by ®RasterPlan modular tool and / or Louvred Boards.

- 4 Heights: 760, 1100, 1450 or 1790 mm
- Impact and scratch resistant plastic coating
- Standing frame light grey
- Single and/or double-sided use possible

RasterMobil® Trolley. The rolling material and tool storage unit. Your useful aid for workshop, operation and assembly plants. Very practical and helps save time. Work processes can be organized so they are not tied to a specific location.

Details

- Modular structure, in four heights
- Subsequent modification or exchange of tool and Louvred Boards possible
- Impact and scratch resistant plastic coating
- Chassis frame Light grey
- Single and/or double-sided use possible
- Ergonomic handles
- Standard equipped with 2 trestle wheels and 2 steering wheels with full stop. (EN 1757-3) Wheels are grey-traceless

The ®RasterPlan ToolTower provides the advantages to have a systematic central place to store and supply tools, small parts and material for the workflow. The ToolTower can be used, depends on the kit mobile or stationary and is available in two sizes.

The ToolTower in its standard version has four outer Tool Boards with the Square Hole System and can be used with Tool Holders and panel holders as well as more handy Tool Board accessories. Individually configured for every usage. The version with the lockable door, provides fully usable space inside the ToolTower with extra inner Tool Boards and usage of shelves.

Details

- Impact and scratch resistant plastic coating

Storage of small parts

Ergonomics

®RasterPlan Pull-Out Cabinets are characterised by extremely wide and stable pull-outs which are available with tool or with Louvred Boards. Larger tools, powered hand tools and small devices can thus be stored safely and saving space. The louvred pull-outs, on the other hand, offer sufficient space for attaching plastic bins, Tool Holders etc. Wall anchoring is recommended.

Details

- Solid steel construction
- Impact and scratch resistant plastic coating
- Light grey body, fronts in gentian blue
- Vertical pull-outs on special telescopic rails, full extension
- Double-sided RasterPlan tool and/or Louvred Boards
- Load capacity 200 kgs (evenly spread load)
- Locking mechanism
- Effective area: 428 x 1640 mm / 12 x 44 holes
- Effective depth: 240 mm, on each side
- Security barrel lock
- Additional group or main keys available on request

Floor anchoring

A cabinet for seriously heavy loads.

All of the models in our heavy duty range have one thing in common - they have a load capacity of up to 1.65 t. The cabinet floor alone carries up to 400 kgs (evenly spread load). This means that the Heavy Duty Cabinets are particularly suitable for storing heavy tools, such as stamping or cutting tools. Wall or floor anchoring is recommended.

Details

- Extremely stable, welded steel construction hard soldered corners
- Impact and scratch resistant plastic coating
- Light grey body
- Smooth fronts with flushed doors

Nearly every storage and order problem can be solved by a ®RasterPlan Plastic Bin or in combination with the variety of application opportunities of the ®RasterPlan system. Nails, screws, additional bulk, small parts etc. even loose food can be stored overseeable and handy or transported. ®RasterPlan Plastic Bins are DGBM protected and are produced out of impact and shatter-resistant Polyethylene

®RasterPlan

Polyethylene

Rear hanging bar

Label holder

Smooth internal walls

Ergonomic front handle

Stacking edge

Ribbed reinforcements

Ergonomic rear grip

Details

- 8 different bin sizes in 6 brilliant colors
- Material and construction provides a dimensionally stable durable shatterproof bin
- Plastic bin made of high quality Polyethylene
- Safe and ergonomical handling due to generously dimensioned, multiple reinforced recessed grips on front and back (size 1-4), available with grip rod - retrofittable
- Specially formed rear hanging bar which enables absolutely horizontal hanging and removal of the bins to and from the RasterPlan Louvred Boards (size 5-8) even when fully loaded. Thus no spilling of content
- Surrounding stacking edge
- Temperature resistant from -40° to +80°C, therefore good usage under extreme climate conditions
- Resistant to common acid, oil and lyes
- Easy cleaning due to smooth internal walls, suitable for food storage
- Ribbed reinforcements on the floor edges
- Designed for use on feed and roller conveyors
- Label holder with a special clamp effect, to avoid slipping of the label
- Environmental friendly, fully recyclable

These System Units fitted with Louvred Boards and various Plastic Bins help to keep order and save time when a workplace needs to have a range of different small parts. E.g. screws, nails etc. on hand

Details

- Modular construction with 4 different heights
- Impact and scratch-resistant plastic coating
- Standing frame light grey
- Single and/or double-sided use possible
- Horizontal hanging and removal of plastic bins

®RasterPlan

RasterPlan plastic bins Size 5-8. Plastic Bins can be hung and removed at Louvred Boards horizontally even when fully loaded.

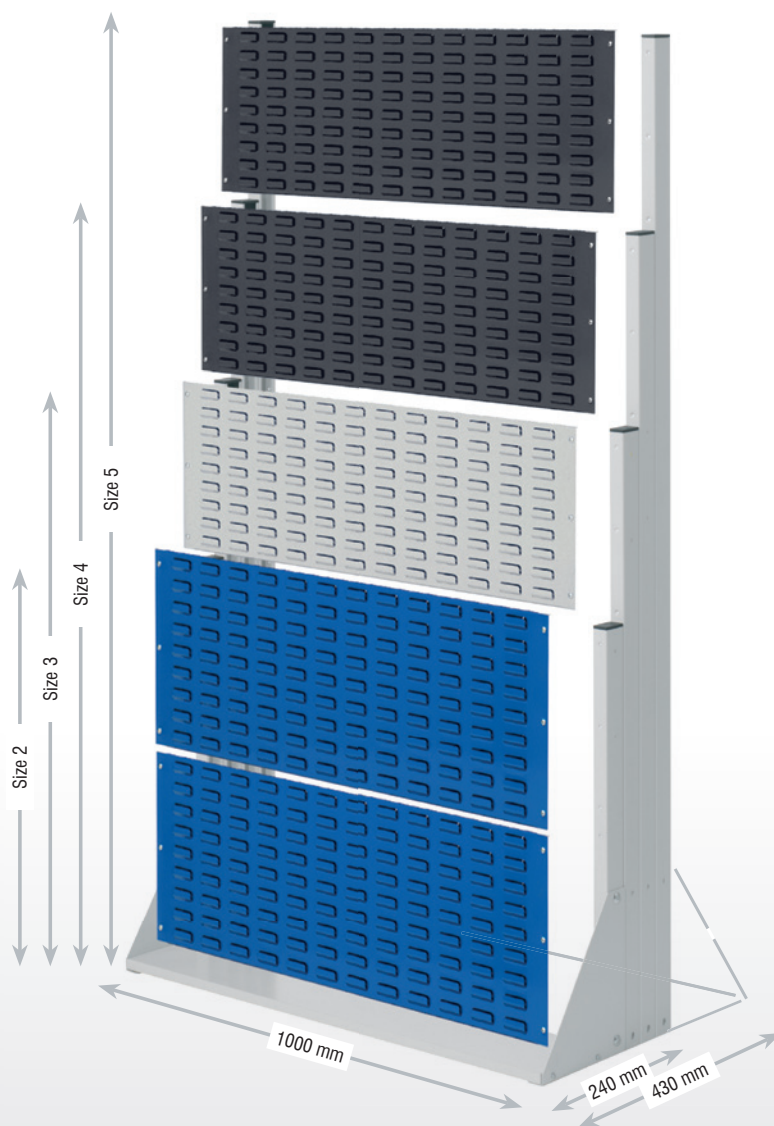

®RasterPlan System Units are equipped with hidden fixing holes for floor anchoring.

The assembly of the ®RasterPlan System Unit is quick and easy through its intelligent modular design. The Movable Wall consists of the Standing frame completed by ®RasterPlan modular tool and / or Louvred Boards.

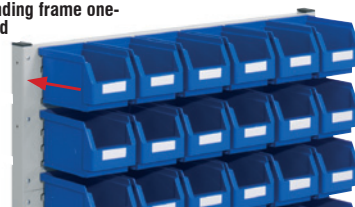

- 4 Heights: 760, 1100, 1450, 1790 mm
- Impact and scratch resistant plastic coating
- Standing frame Light grey
- Single and/or double-sided use possible

This mobile material and small parts storage system can be used anywhere where things are picked, assembled or repaired. Fitted on both sides with Louvred Boards and practical ®RasterPlan Plastic Bins, it keeps all types of small items at hand and easily moved.

Details

- Modular structure, in three heights
- Subsequent modification or exchange of Tool and Louvred Boards possible
- Impact and scratch resistant plastic coating
- Chassis Frame light grey
- Double-sided use
- Ergonomic handles
- Horizontal hanging in and removal of RasterPlan Plastic Bins
- Standard equipped with 2 trestle wheels and 2 steering wheels with full stop. (EN 1757-3)
- Wheels are grey - traceless

RasterMobil®

Ergonomic handle

RasterPlan Plastic Bins size 5-8. Plastic Bins can be hung and removed at Louvred Boards horizontally even when fully loaded.

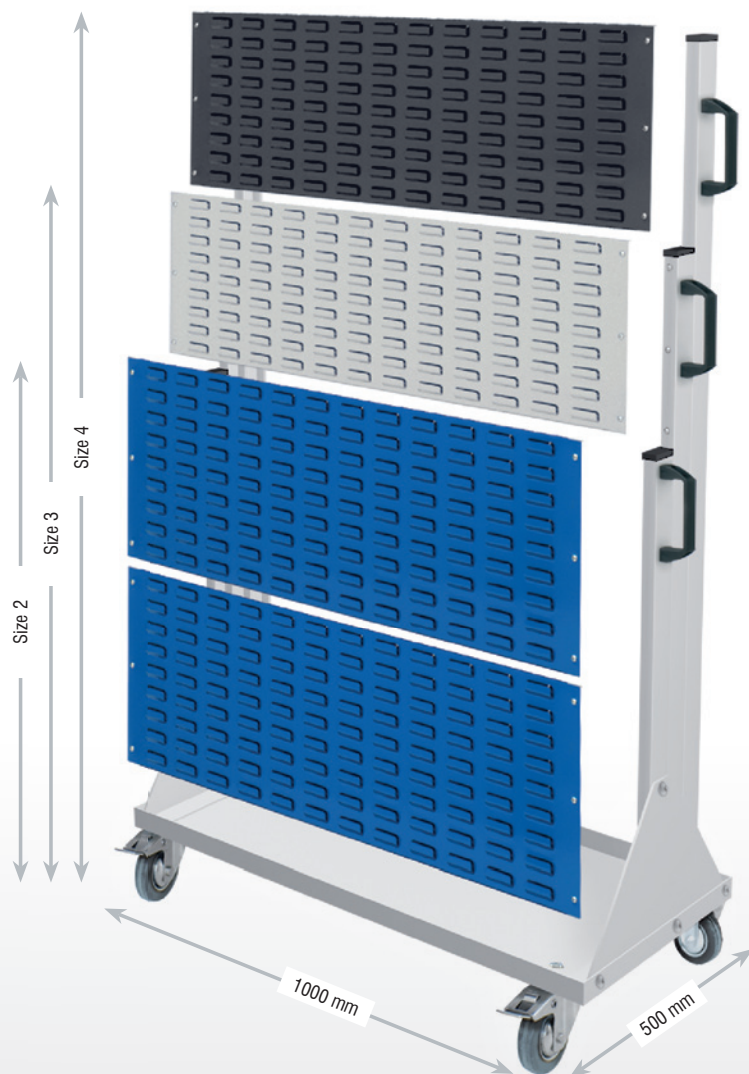

Standard equipped with 2 trestle wheels and 2 steering wheels with full stop.

The assembly of the RasterMobil® Trolley is quick and easy through its intelligent modular design. The RasterMobil® consists of the Chassis Frame completed by RasterPlan modular Louvred Boards as well as Top / Tray Shelves and Mounting Cabinets

RasterMobil®

The RasterPlan Louvred Cabinets are the ideal solution when small items need to be clearly and neatly stored. Due to the louvred rear wall there are no shelves needed. The RasterPlan Plastic Bins (size 5-8) will be directly hung into the rear wall.

Details

- Solid steel construction
- Impact and scratch resistant plastic coating
- Body light grey RAL 7035
- Rear wall with RasterPlan Louvres
- Smooth fronts with flushed doors
- Opening angle of over 200°
- Connecting rods throughout
- Reinforced doors
- Viewing window doors
- Three bolt security barrel lock
- Additional group or main keys available on request
- No Shelves needed !

RasterPlan Plastic Bins size 5-8. Plastic Bins can be hung and removed at Louvred Boards horizontally even when fully loaded.

Utility Bins

Designed to accommodate small parts of all types, these environmentally friendly, tough polypropylene bins are made to fit all common shelf sizes. The pluggable separators enable flexible division of space to suit the relevant content.

Details

- 6 different Bin sizes - 2 Colors
- Temperature resistant from -40°C to $+70^{\circ}\text{C}$
- Resistant to commonly used acid and lyes
- Exact and stable positioning of separators thanks to the grooved side guides and additional fitting on the bottom of the bin
- Integrated label holder
- Environmental friendly, fully recyclable

High Volume Bins

These High Volume Bins are very tough and durable. The various size of the bins, made of impact resistant polypropylene, enable a wide range of options for storing small and spare parts. The Bins are designed to fit into most commonly used shelf sizes. In conjunction with the shelves and/or system cabinets, this offers a wide range of options for building up small part storage systems.

Details

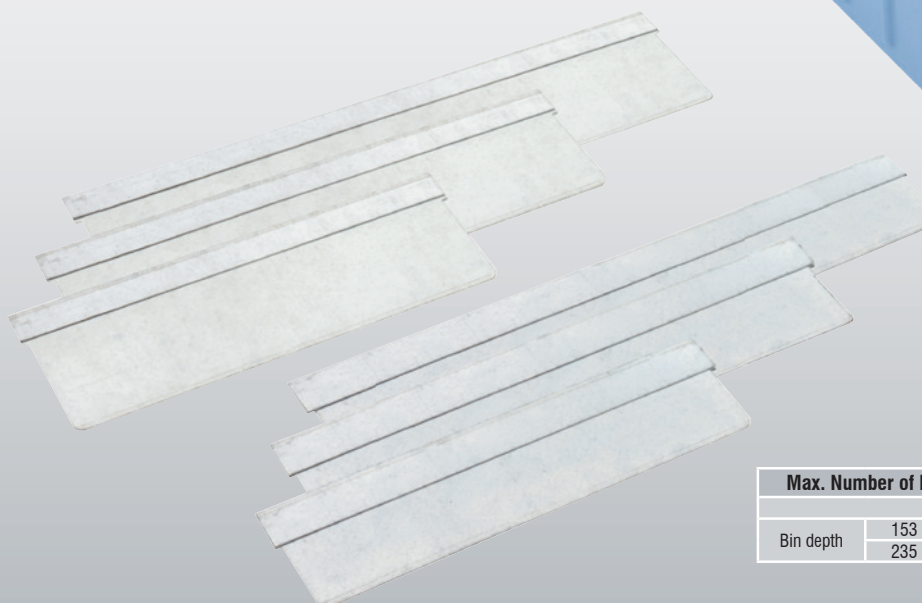

- 9 different bin sizes
- Pigeon blue
- Temperature resistant from -40°C to +70°C
- Resistant to commonly used acids and lyes
- Exact seating of the cross and longitudinal dividers due to grooved guides
- Stackable
- Environmentally friendly, fully recyclable

Euro Transport Boxes

Our Euro Transport Boxes are designed specifically to fit the Euro Norm Pallet. Based on the common dimensions, the various sizes can be stacked on top of each other. These boxes made of Polypropylene provides a high durability and flexibility.

Details

- 12 Sizes in 3 brilliant Colors
- Maximum form stability
- Smooth interior, easy to clean
- Low-noise movement on conveyors
- Designed for the use with storage and retrieval machines, conveyors, grabber technologies
- Extremely tough (high crush resistance)
- Double walled, reinforcement ribs
- Temperature resistant from -40°C to +70°C
- Food safe
- Resistant to commonly used acids and lyes
- Environmentally friendly, fully recyclable

Storage of small parts

Ergonomics

The accessories range enables even better use of the boltless rack.

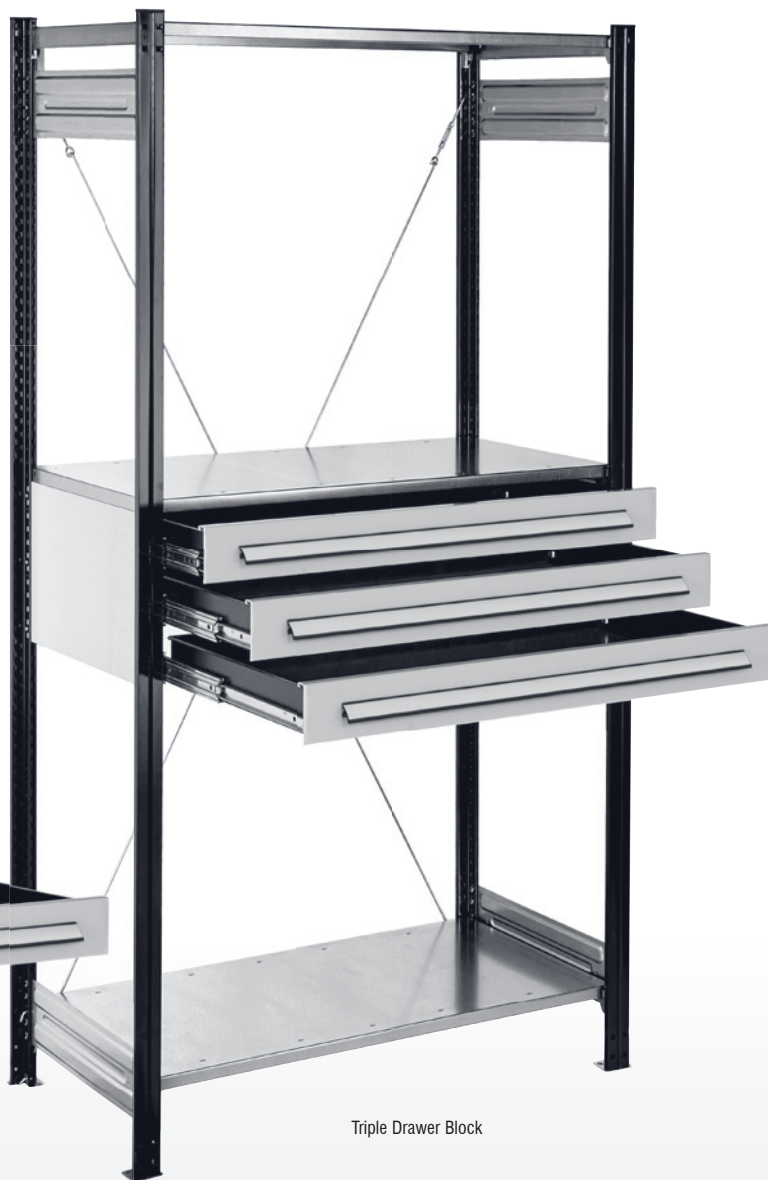

Whether it be individual single drawers, drawer blocks, ®RasterPlan tool or Louvred Boards as rear or side walls, the accessories help to safely store small parts and tools tidily.

Details

- Telescopic guided drawers with full extension
- Drawer height 100 mm
- Drawer load 50 kgs (evenly spread load)
- Ergonomic handles with labeling field
- Can be retrofitted if required
- Impact and scratch resistant plastic coating
- Light grey (RAL 7035)
- Only for boltless racks with a depth of 500 mm

Single Drawer Block

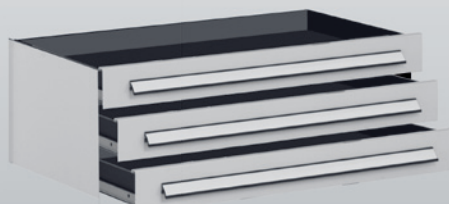

Triple Drawer Block

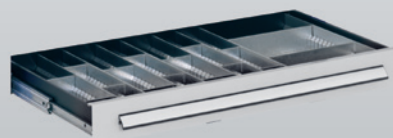

We advice to use a shelf to cover a drawer block.

Heavy Duty Racks without dividing wall

The Heavy Duty Rack is constructed to carry high loads up to 1,65 t. It provides all advantages of a Drawer Cabinet.

The base carries up to 400 kg (evenly spread load)

Drawers, shelves and also pull-out shelves can be combined and assembled. Everything can be retrofitted. We suggest a wall and floor anchoring.

Details

- Extremely stable, welded steel construction hard soldered corners
- Impact and scratch resistant plastic coating
- Light grey body
- Telescopic guided drawers with full extension
- Load capacity 110 kgs (evenly spread load)
- 3 heights of the drawers
- Can be retrofitted if required
- Drawer lock mechanism upon request
- Galvanized shelves
- Load capacity 160 kgs (evenly spread load) optional 200 kg
- Adjustable 25 mm pitch

Ergonomics

Just as well made and modularly constructed are the series 500 ErgoPlus System Cabinets, but due to the great cabinets depth these units are able to provide additional uses, such as cleaning cabinets or filing cabinets, wardrobes etc. The flushed doors and smooth fronts as well as the viewing window doors bring a modern and attractive design. Ideal for professional use in offices, warehouses, plants and workshops.
